

# FIRE ISOLATOR

## Datasheet FireBlanket Ultimate FI-BL0906

### Product description

The T-ISS FireBlanket Ultimate can be used for normal, combustion-engined and EV car fires. It can be deployed in parking garages, parking lots, shopping malls, onboard ferries, etc. The blanket can be used for all car sizes from a small city car up to large SUV models.

Due to depriving the oxygen inlet, the car fire will be isolated. The fire will not spread and will avoid collateral damage, also the smoke spread will stop and gives fire crews easier access to the vehicle.

The FireBlanket is reusable and can be cleaned. It can stand peak temperatures of 1600 °C, and can withstand 1200 °C for more than 50 hours. The FireBlanket Ultimate FI-BL0906 is easy to deploy by 2 people.
